Trusted Trading, Manufacturing & Strategic Commodities Partner

PPM General Trading LLC is a diversified trading, manufacturing, sourcing, and strategic commodities company based in Dubai, UAE. The company operates across foodstuff, FMCG, private-label manufacturing, industrial commodities, energy products, petrochemicals, fertilizers, metals, minerals, and oil & gas support services.

Through its manufacturing and repacking partnerships, including access to a 72,000 sq. ft. production facility, PPM supports bulk supply, repacking, private label production, and export-ready product solutions across the GCC, Africa, Asia, Europe, and wider international markets.

In addition to food and FMCG manufacturing, PPM works through trusted supply partners and mandate supplier networks to support strategic commodity trading, including sulphur, phosphate, urea, diesel, jet fuel, bitumen, LPG, LNG, petrochemical products, metals, minerals, and industrial raw materials.

We are committed to serve you

At PPM General Trading LLC, our commitment is to deliver reliable, scalable, and market-driven solutions that help buyers, distributors, industries, retailers, government-linked entities, and international partners secure products with confidence.

We combine manufacturing access, global commodity sourcing, partner-backed supply networks, logistics coordination, and market intelligence to support long-term supply relationships.

Company Purpose

Creating an Integrated Ecosystem of Manufacturing, Trade, Energy Supply & Strategic Partnerships

Our purpose is to act as a commercial bridge between manufacturers, producers, suppliers, buyers, distributors, industrial users, and global markets.

PPM aims to create a diversified platform that combines foodstuff manufacturing, private-label production, bulk commodity trading, energy-sector supply, logistics, and industrial partnerships.

Through strategic sourcing, reliable partner networks, scalable production access, and Dubai-based trade infrastructure, PPM contributes to regional supply security and long-term commercial growth across essential sectors.

Our Vision

Building a Sustainable and Scalable Industrial Future

PPM envisions becoming a trusted Dubai-based platform for diversified manufacturing, trading, and strategic commodity supply. Our goal is to support regional and international markets with reliable products, responsible sourcing, scalable production access, and long-term partnerships.

CORE VALUES

Integrity

Transparency & ethical business practices

Excellence

Consistent quality and operational precision

Innovation

Smarter processes, advanced technology, and adaptive solutions

Collaboration

Strong partnerships that support long-term growth

Our Mission

Empowering Markets Through
Reliable Sourcing, Scalable
Production & Strategic Supply
Partnerships

Our mission is to provide high-quality products and supply solutions across food, FMCG, energy, petrochemicals, fertilizers, minerals, metals, and industrial commodities.

PPM works to strengthen buyer confidence by combining reliable sourcing, export-ready logistics, manufacturing access, partner-backed supply networks, and structured commercial execution.

We aim to support clients with the right product, right source, right pricing structure, and right delivery model — whether for retail supply, industrial use, bulk trading, repacking, private label, or long-term offtake agreements.

Our Opportunity

Rising demand. Expanding markets.
Integrated capabilities.

60%

Increase in demand for bulk commodities and essential food products across emerging African and GCC markets.

\$1.5
trillion

Global food and FMCG trade market size, driven by rising consumption and diversified import demand.

18%
annually

Expected growth in private-label and contract manufacturing across GCC and Africa over the next five years.

Industry Sectors

PPM General Trading LLC operates across a select group of high-demand sectors that align with our manufacturing capacity, trading network, and strategic partnerships. These core sectors reflect where we have both market depth and operational capability.

Food & Agro-Commodity Manufacturing

Rice, sugar, flour, edible oils, pulses, lentils, beans, tea, oats, milk powder, poultry, meat, seafood, fresh and frozen products.

FMCG & Private Label Products

Private-label production, repacking, toll packing, blending, recipe support, A4 paper, paper cups, packaging materials, and consumer-ready product lines.

Specialty Imports & Premium Products

Coffee, niche ingredients, value-added consumer items

Energy & Industrial Supply

Diesel, jet fuel, bitumen, LPG, LNG, sulphur granules/britt, petrochemical products, lubricants, and energy-related supply solutions.

Fertilizers & Agricultural Inputs

Urea, sulphate, phosphate rock, phosphate fertilizers, agricultural-grade fertilizers, granular and powder formats.

Metals & Industrial Commodities

Aluminum, copper, steel, iron ore, steel slag, industrial scrap, HMS1/HMS2, antimony, and industrial metal products.

Minerals & Raw Materials

Calcium carbonate, silica, gypsum ore, quartz, clinker, plaster of Paris, cement, and industrial minerals.

Rig Operations & Oilfield Support

Rig sourcing, rig sales, leasing, JV structures, rig crew support, equipment supply, operational requirements, and oilfield materials.

Operational Ecosystem

An integrated model connecting manufacturing, global sourcing, partnerships, and distribution.

PPM operates through an integrated ecosystem connecting manufacturing, trading, sourcing, logistics, and export services. This structure enables speed, scalability, and reliability across all markets we serve.

Manufacturing Hub

Dedicated facility supporting scalable production and private label manufacturing.

Trading Engine

Global sourcing and multi-category trading across food, FMCG, and industrial products.

Distribution Network

Export-ready logistics, warehousing, and distribution across GCC, Africa, Asia & Europe.

Our Services

Integrated Solutions Across Trading, Manufacturing, and Global Supply Chains

PPM General Trading LLC delivers a complete ecosystem of services designed to support trading companies, retailers, distributors, manufacturers, and international buyers. Our capabilities extend across manufacturing, sourcing, exports, partnerships, and end-to-end supply chains.

Manufacturing Services

 Scalable Production Through Our Dedicated Facility Partner

Through Green Feels Trading LLC's 72,000 sq. ft. facility, PPM offers industrial-scale manufacturing and private label production across multiple food categories. We support regional brands, distributors, and international buyers with consistent quality and batch-controlled output.

-  **Contract manufacturing and toll packing**
-  **Private label production for food and FMCG categories**
-  **Custom formulation, blending & recipe development**
-  **Packaging, repacking & printing services**
-  **Full compliance with food safety and international quality standards**

Supply Chain & Distribution

Integrated Logistics for Efficient Regional and Global Movement

We support partners with warehousing, logistics, and distribution capabilities to ensure smooth delivery across local and international markets. Through partners like JAMS Logistics, we offer reliable, cost-effective, and compliant supply chain flows.

Warehousing & storage coordination

Inventory planning & stock management

Transportation & last-mile delivery support

Consolidation and distribution for exports

Documentation and compliance handling

Energy, Oil & Gas Commodities

Reliable sourcing for Strategic Energy Products

PPM works through trusted supply partners and mandate supplier networks to support buyers seeking energy products, oil and gas commodities, and petrochemical derivatives.

The energy desk is designed to support structured inquiries, long-term supply requirements, industrial users, traders, and buyers requiring verified sourcing, documentation, and delivery coordination.

Key Products

- Diesel
- Jet Fuel
- Bitumen
- LPG
- LNG
- Sulphur Granules/ Britt
- Petrochemical Products
- Car Engine Oil
- Industrial Lubricants
- Oil Derivatives

Supply Origins and Sourcing Corridors:

- Kazakhstan
- Azerbaijan
- Indonesia
- Russia
- Middle East and GCC supply corridors
- Other approved origin markets subject to availability and compliance

Commercial Structures:

- FOB
- CIF
- CFR
- EXW
- Spot supply
- Long-term supply agreements
- Mandate-backed sourcing

Fertilizers & Agricultural Commodities

PPM supports agricultural and fertilizer supply requirements through partner-backed sourcing channels, including phosphate-focused networks and multi-origin fertilizer supply.

Product Range

- Urea 46% / 46.5%
- Sulphate — powder and granular
- Phosphate rock — all grades
- Phosphate fertilizers
- Agricultural-grade fertilizers
- NPK-related inputs
- Granular and powder formats

Phospaste Capabilities

Through its strategic partner network, PPM can support sourcing and supply of phosphate rock and fertilizer-related products from Egypt and other international phosphate-producing regions.

Available supply structures may include bulk vessel shipments, containerized shipments, packed and palletized supply, and long-term supply arrangements depending on buyer volume and product specification.

Minerals and Raw Materials

PPM can support industrial buyers, manufacturers, construction-related users, and trading partners with sourcing of minerals and raw materials.

Key Products

- Calcium carbonate
- Silica
- Gypsum ore
- Quartz
- Clinker
- Plaster of Paris
- Cement
- Industrial minerals
- Raw material inputs for manufacturing and construction industries

Supply Capabilities

- Bulk sourcing
- Containerized shipment
- Industrial-grade supply
- Custom specifications
- Multi-origin sourcing
- Export and re-export

Metals & Industrial Commodities

PPM supports sourcing and supply of metals, scrap, and industrial commodities for manufacturers, traders, and industrial buyers.

PRODUCT RANGE

- ✓ Aluminum
- ✓ Copper
- ✓ Steel
- ✓ Iron Ore
- ✓ Steel Slag
- ✓ Industrial Scrap
- ✓ HMS1/HMS2
- ✓ Antimony
- ✓ Compressed light scrap Metal
- ✓ ELV / ASR-related scrap
- ✓ Iron pellets
- ✓ Industrial metal derivatives

CAPABILITIES

- Supplier coordination
- Specification-based sourcing
- Bulk and containerized options
- Industrial buyer support
- Documentation and shipment coordination
- Competitive sourcing from approved partners

Rig Operations & Oilfield Support

PPM's oil and gas support capability extends beyond commodity supply. Through its partner network and industry contacts, PPM can support rig-related requirements, equipment sourcing, operational structuring, and oilfield support services.

AREAS OF SUPPORT

- Rig sourcing, sales facilitation, lease options, JV structuring
- Rig allocation support, crew coordination
- Operational materials supply, oilfield equipment sourcing
- Spare parts and consumables, logistics support for rig operations
- Vendor and supplier coordination

COMMERCIAL MODELS

- Direct sale and lease arrangements
- Joint venture and operational partnership
- Supply and service support
- Project-based sourcing

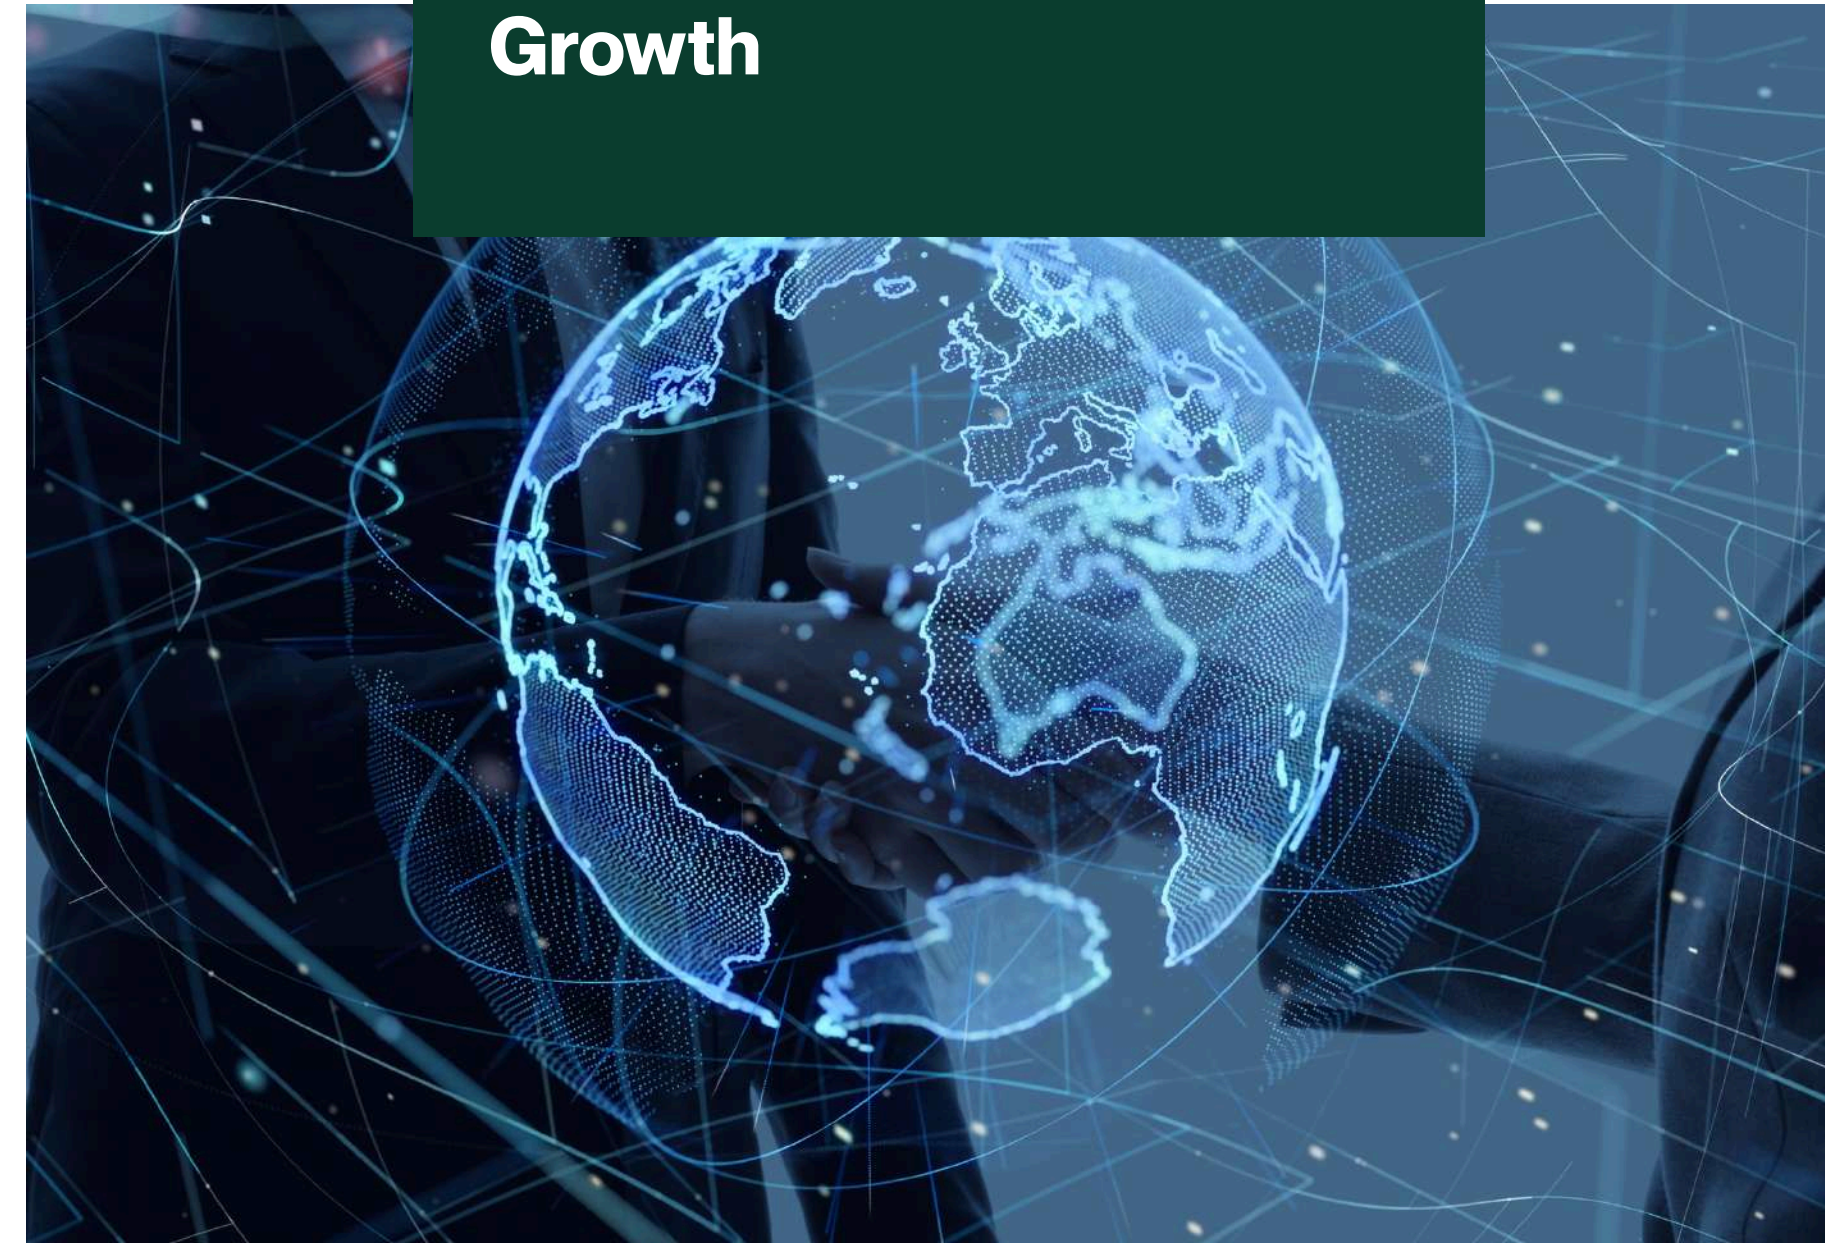

Partnership Development

PPM enables brands, manufacturers, and distributors to enter new markets through strategic partnerships. Our network spans food ingredients, energy, logistics, packaging, and specialty product sectors.

- ☑ **Supplier onboarding & industry partnerships**
- ☑ **Brand expansion strategies for new markets**
- ☑ **Technical collaborations with global manufacturers**
- ☑ **Access to distributors and trade networks**
- ☑ **Investment-ready project structuring for expansion**

**Building Strong Alliances
to Accelerate Market
Growth**

Global clientelle

PPM connects global suppliers, regional distributors, and high-demand markets through a unified ecosystem of manufacturing, trading, and export logistics. Our presence across key international corridors enables us to meet diverse market needs, deliver consistent quality, and support partners with reliable end-to-end supply solutions.

Strategic Partner: ROAD MASTER T.L.C

Trading | Logistics | Contracting | Commodity Supply

PPM works with strategic partner networks to strengthen its commodity sourcing, logistics, and industrial supply capabilities. Road Master T.L.C is one such partner, bringing strong experience across trading, logistics, contracting, phosphate, fertilizers, petrochemicals, metals, minerals, food products, and supply-chain execution.

PARTNER STRENGTHS

- Phosphate sourcing and export capability
- Logistics and contracting experience
- Supply access across six commodity sectors
- International sourcing markets
- Fertilizers and agricultural commodities
- Petrochemicals and energy products
- Minerals and raw materials
- Metals and industrial commodities
- Food products and supply chain support
- Bulk, containerized, packed, and palletized supply models

STRATEGIC VALUE TO PPM

- Expands PPM's access to commodity suppliers
- Strengthens phosphate and fertilizer offering
- Adds logistics depth for mine-to-port and port-to-destination movement
- Supports buyer inquiries across energy, minerals, metals, and food commodities
- Enables more flexible supply structures for international buyers

Associate Company

Green Feels Industries | Green Feels Trading

Green Feels Trading LLC operates the 72,000 sq. ft. facility where PPM's production lines run, while its growth, expansion, and market access are driven by PPM's investment, partnerships, and global supplier network.

PPM enables Green Feels to scale operations, expand categories, and access regional and international markets.

Key Highlights

- 11+ production lines activated under PPM's guidance
- PPM-led partnerships drive sourcing, technology, and expansion
- Facility supports oils, staples, pulses, tea, oats, milk powder & packaging
- PPM provides the market entry strategy, buyers, and export channels
- Positioned for 30+ new lines through PPM-driven investment roadmap

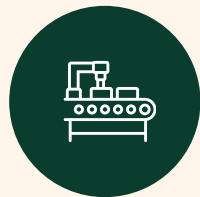

Strategic Partnerships

PPM collaborates with industry leaders to strengthen product quality, sourcing capabilities, and logistics networks.

Why Choose PPM

PPM brings together manufacturing access, global sourcing, commodity trading, partner-backed supply, energy-sector reach, and logistics coordination into one integrated platform.

Manufacturing Strength

High-capacity production powered by advanced facilities and private label systems.

Commodity Depth

Strong supply coverage across food, FMCG, fertilizers, energy, petrochemicals, metals, minerals, and raw materials.

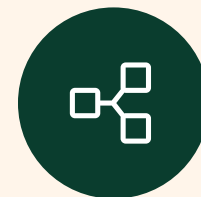

Energy & Oil/Gas Capabilities

Support for diesel, jet fuel, bitumen, LPG, LNG, sulphur, lubricants, petrochemicals, and oilfield requirements.

Strategic Partnerships

Collaboration with trading, logistics, manufacturing, and mandate supplier partners to expand product access and buyer confidence.

Global Reach

Sourcing and trading corridors across the GCC, Africa, Asia, Europe, and key origin markets.

Integrated Logistics

Warehousing, consolidation, documentation, shipping, and distribution support through reliable partners.

Our Commitment

Reliable Supply. Clear Communication. Long-Term Partnership.

PPM does not simply trade products — we help buyers structure reliable supply relationships. Our commitments to every partner:

Reliable Global Sourcing

Access to multiple supplier channels and partner-backed sourcing networks.

Consistent Product Quality

Product specification review, documentation support, and source coordination.

Efficient Logistics Execution

Shipment planning from source to destination through trusted logistics partners.

Competitive Commercial Structuring

Flexible pricing and supply models depending on volume, origin, and delivery terms.

Transparent Communication

Clear buyer coordination from inquiry to offer, documentation, shipment, and delivery.

Long-Term Partnerships

Structured supply relationships built around trust, consistency, and mutual growth.

Every engagement is structured around the buyer's specific requirements — from spot supply to long-term partnership arrangements.

COMPLIANCE & COMMERCIAL NOTE

PPM General Trading LLC works to ensure that all supply arrangements are handled with due care, commercial transparency, and documentation discipline.

ALL ENERGY, PETROCHEMICAL, GAS-RELATED, INDUSTRIAL, AND STRATEGIC COMMODITY TRANSACTIONS ARE SUBJECT TO:

- Product availability
- Supplier confirmation
- Buyer due diligence
- Origin verification
- Sanctions and compliance screening

- Applicable UAE and international trade regulations
- Product specification confirmation
- Final commercial agreement
- Logistics and documentation feasibility
- Payment instrument approval where applicable

OPERATING STRUCTURE

PPM acts through its own trade channels, associate companies, and strategic supply partners depending on the product category and transaction structure.
